

APPLICATION NOTES

The Vegware Community Fund supports sustainability in its widest sense, including the built and natural environment, and community projects. Our fund offers monthly grants or a regular donation of Vegware products.

Grants are intended to cover core costs, which may include items like stationery, teas/coffees for volunteers, equipment hire, heating, web hosting, internet access and so on. It is our goal to provide a contribution to allow groups to engage in their chosen task, develop or expand existing projects, or provide a basis from which to apply for further project funding.

Individual grants will be £20-200 in UK / \$25-250 in US per month, paid monthly. All support will be reviewed after a 12-month period.

Vegware's terms

1. Ideally organisations should have been running for at least 12 months.
2. Applicants must have a UK or US bank account in the name of the organisation for payments to be made into.
3. Your most recent annual report and financial summary must be submitted along with the application.
4. We require a monthly update **by the 5th of each month** on what your organisation has been doing – this consists of a paragraph of text and at least one recent image we have not previously been sent. These will be used publicly in Vegware's communications channels, online or in print, and shared via social media. These also serve to publicise your organisation, and we encourage interaction online. Please ensure all material sent to us is suitable for public viewing and is not of a sensitive nature.
5. Application forms must be short and concise – keep to the requested length.
6. All grants are completely at the discretion of Vegware, and no discussion will be entered into. We may offer you less than the amount requested, in which case you can accept or decline the offer.

**Send your completed application form and financial information to the address below. If emailing, please scan and attach the signature page.
We look forward to hearing from you!**
